EDUCATION

Bachelor of Technology
Shri Ramswaroop Memorial College of Engineering and Management

08/2016 – 07/2020   *Lucknow, India*

WORK EXPERIENCE

Data Analyst Intern
ERA University Lucknow, Uttar Pradesh

07/2019 – 10/2019   *Lucknow, India*

Project

- I was given the responsibility to scrape the Ventilator Machines in the ICCU Department of the ERA Medical University. After getting the data of about 200,000 entries over a time span of two years, I made a machine learning model that was able to predict the effect of a particular medicine on a patient based on the history of several other patients. I am still working to increase the accuracy of this model and collect more data so that this could be deployed on any platform and used by patients and doctors for their reference and better prescription

COURSES

Machine Learning by Professor Andrew Ng (Stanford University, Coursera)

Machine Learning with Python by IBM (Coursera)
https://github.com/thehujjatzaidi/vital-prediction

Applied Plotting, Charting & Data Representation in Python (Coursera)

CS231N on Computer Vision by Professor Fei Fei Li (Stanford University)

Deep Learning and Neural Networks by Professor Andrew Ng (Coursera)

Web Development by Internshala
http://adeelakhtar.org/

Java Programming by Internshala
https://github.com/thehujjatzaidi/Connect4-JAVA-App

Python Programming by Code with Mosh

SKILLS

Python and Python Libraries (Data Science)

MySql Database   Web Scraping (Beautiful Soup 4)

Machine Learning Algorithms

Web Development (HTML, CSS)   C/C++

Public Speaking   Wordpress   Team Leader

PERSONAL PROJECTS

Patient Vital Prediction (07/2019 – Present)
- I am working on this model to increase its accuracy so that it can be used widely by doctors

Connect 4 Dot Game in JAVA
- I made this project in JAVA as a part of the training programme by Internshala

Playathon
- Playathon is my Engineering Final Year Project which helps in organising Sport Events for the registered members in a particular region of a city

Website using Wordpress
- I am volunteering my free time for a Non Profit Organisation, where I am leading the IT team and am responsible for the technical issues
- http://adeelakhtar.org/

CERTIFICATES

C Training by IIT Bombay

Web Technologies (Canvaas Softwares)

Web Development (Internshala)

International Web Quiz (First Position)

Certificate of Excellence in JAVA Programming (Internshala)

Data Science Training (Internshala)
